Yogurtini Kosher Guide

ONLY PRODUCTS LISTED ON THIS SIGN ARE CERTIFIED KOSHER

ALL DAIRY ITEMS ARE CHOLOV STAM

Yogurt and Sorbet:

All frozen yogurts are kosher and are certified DAIRY.

Toppings:

Toppings bars are separated into kosher and non-kosher zones. Non-kosher toppings are located on the far **left** of each section and are labeled with a **RED** label. *All kosher toppings are labeled with a letter "K" indicating kosher status.*

Hot fudge and sauces located in the squeeze bottles are kosher, as indicated on their labels.

Other items:

The following products are certified KOSHER DAIRY:

- Waffle cones
- Otis Spunkmeyer cookies
- Rocky Mountain Chocolate Factory products
- Fudge logs
- Smoothies [dairy status depends on the flavor]

Non-kosher:

All other items are NOT certified kosher – including the products on the far right, curved display cases.

What is kosher?

"Kosher Meat" ... "Kosher Pickles" ... "Kosher Deli" – we encounter the word "kosher" in almost every section of the supermarket. Anyone can tell you that the term "kosher" has something to do with the Jewish food market. But what does it actually mean?

"Kosher" – a Definition

"Kosher" is a Hebrew word that literally means "fit" or "proper." When used in relation to food products, **"kosher" means that the item in question meets the dietary requirements of Jewish law.**

The principles governing what is kosher and what is not, are rooted in the Torah (the Jewish Bible) and in the oral tradition of Jewish law. Jews have observed these laws for over 3,000 years, and, over the centuries, experts have applied them to ever-changing situations and developing technologies.
